

MRI Technologist (PRN)

Location: Muncie/Anderson

Why Join CIO?

Central Indiana Orthopedics has been proud to serve central Indiana for over 70 years. With offices in Muncie, Anderson, Marion and Fishers, CIO strives to be a trusted and preferred provider of orthopedic healthcare services for the communities we serve. Providing excellent orthopedic care while treating all people with dignity and respect is the core of who we are and what we do on a daily basis.

Employees enjoy a team environment with a focus on balancing their commitment to work life and home life. Additionally, eligible employees have access to excellent benefits which include:

- Consistent work schedules with no nights, weekends or major holidays
- Accrued paid time off
- Health, Dental and Vision insurance plans
- Company-provided life and long-term disability insurance
- A robust 401k retirement and profit sharing plan

What You Will Do?

This individual in this position will be working in the Anderson and Muncie locations.

The MRI Technologist is responsible for assisting patients in feeling comfortable with and answering questions about the MRI procedure. This individual will perform basic MRI examination based on physician orders, position patients appropriately, and select proper machine settings to produce ordered images.

- Prepares patients and adjusts equipment for scanning following established procedures for patient care and safety. May prepare patients and operate equipment for radiological procedures.
- Communicates aspects of procedures with patient, answering questions and easing patient concerns; interviews and screens each patient for contraindications and history prior to entering scan room.
- Evaluates physician needs to select appropriate protocols based on the patient; observes patients for vital signs during examination; prepares contrast media and administers IV contrast according to office protocols under supervision of physician.
- Follows prescribed safety standards in operating MRI equipment.
- Prepares examination rooms, stocking with necessary supplies and ensuring equipment is clean and in working order.

What You Will Need:

Qualifications and Education Requirements

Completion of course in radiological technology approved by the American Registry of Radiological Technologists. Board certified with the American Registry of Radiologic Technologist in MRI. One year of experience as MRI technologist preferred.
