

## Certified Surgical Technologist (CST) (PRN)

Location: Fishers ASC

### Why Join CIO?

Central Indiana Orthopedics has been proud to serve central Indiana for over 70 years. With offices in Muncie, Anderson, Marion and Fishers, CIO strives to be a trusted and preferred provider of orthopedic healthcare services for the communities we serve. Providing excellent orthopedic care while treating all people with dignity and respect is the core of who we are and what we do on a daily basis. Employees enjoy a team environment with a focus on balancing their commitment to work life and home life.

### What You Will Do?

The Certified Surgical Technologist is responsible for delivering safe, effective, and efficient care in a surgical environment. This individual will handle the instruments, supplies, and equipment necessary during the surgical procedure with a constant focus on the maintenance of the sterile field. Individuals in this position must have a solid understanding of the procedure being performed and anticipate the needs of the surgeon.

### Roles and Responsibilities

- Prepares delivery care with appropriate sterile and non-sterile instruments and supplies.
- Attends deliveries and hands required/requested instruments and supplies to surgeon during surgery.
- Assists with preparing, transporting, positioning and draping patients.
- Maintains instruments in an organized manner and monitors/tracks instrument counts throughout procedures.
- Scrubs procedures of varying degrees of difficulty proficiently.
- Performs technical skills and trouble shoots equipment with minimal assistance.
- Prepares procedures with available information such as surgery schedule (age, procedure, and requested special instrumentation) and physician preference sheet (updating physician preference sheet as requested per physician).
- Assure that needed supplies and instrumentation is present and working properly for each procedure.
- Properly disposes of supplies and instrumentation following procedures in a consistent and timely manner. Assist with timely room turnover and prepare the operating room for the next procedure.
- Properly cleans and cares for instruments and equipment used in the surgical/procedure areas.

### What You Will Need:

#### Qualifications and Education Requirements

Graduate of a Surgical Technologist program and must hold a current Certified Surgical Technologist certification (CS) or obtain certification within six months of hire date to position. One year experience as a CST preferred. Must maintain BLS certification (or obtain within six months of hire date to position).
