

Certified Occupational Hand Therapist

Location: Muncie

Why Join CIO?

Central Indiana Orthopedics has been proud to serve central Indiana for over 70 years. With offices in Muncie, Anderson, Marion and Fishers, CIO strives to be a trusted and preferred provider of orthopedic healthcare services for the communities we serve. Providing excellent orthopedic care while treating all people with dignity and respect is the core of who we are and what we do on a daily basis. Employees enjoy a team environment with a focus on balancing their commitment to work life and home life.

What You Will Do?

The Certified Occupational Hand Therapist provides occupational hand therapy services to patients with impairments, developmental disabilities, functional limitations, disabilities, or changes in physical function and health status resulting from hand trauma, disease, or other causes. Individuals in this role will actively collaborate with the health care team to meet patient care goals and outcomes with exceptional service.

Roles and Responsibilities

- Provides quality care by assessing and interpreting evaluations and test results; determining occupational therapy treatment plans in consultation with physicians or by prescription.
- Helps patient develop or regain physical functioning or adjust to disabilities by implementing programs involving manual techniques; practice in functional, prevocational, vocational, and homemaking skills; activities of daily living; and sensorimotor, educational, recreational, and social activities.
- Promotes maximum independence by selecting and constructing therapies according to individual's physical capacity, intelligence level, and interest.
- Understands the unique features, rules, and regulations of the Workers Compensation system as related to patient care, documentation, treatment, and communication with a focus on ensuring excellent outcomes.
- The ability to recommend, make, adjust, fit, educate usage of, document, and communicate on any splints, dynamic and static, requested for the upper extremity.
- Plans and prepares written treatment program based on evaluation of patient data.
- Evaluates effects of treatment at various stages and adjusts treatments to achieve maximum benefit.
- Records treatment, response, and progress in patient's chart and electronic medical record.
- Instructs patient and family in treatment procedures to be continued at home.
- Confers with physician and other practitioners to obtain additional patient information, suggest revisions in treatment program, and integrate occupational therapy treatment with other aspects of patient's health care.

What You Will Need:

Qualifications and Education Requirements
